

# New Facility

**Kappa Kosmos Archery club will shortly inaugurate the new facility built in Rovereto and invites you to come and take advantage of it!**

**The archery center is designed to meet any possible need.**

## IN THE CENTER:

- dormitory with 25 beds
- kitchen where you can cook your meals by yourself
- on the ground floor there's a shooting hall with 11 targets (18-25 m)
- on the right side of the shooting hall you can open the glass doors from where you can shoot at the long distances. on this side in fact you have a 64 targets field for the outdoor competition
- on the first floor, near the dormitory, there's a meeting room suited for seminars, where you can develop the theoretic sessions before moving downstairs for the practical demonstration.
- Near the shooting room there's a small gym for muscular training.

**In addition to all the services featured in the archery center, it is also possible to take advantage of some cooperation developed with external organizations such as the cebism. That is a group of researchers from the university who have been cooperating with our club for some years developing a shooting model in order to apply to the shooter and find the weaknesses and strength.**

**The archery facility is in the new sport district and it makes it easy to reach the other facilities such as the tennis field and the swimming pool.**
